The National Board approved (86% to 14%) the TV/Theatrical Contracts tentative agreement and recommends a “YES” vote to ratify these gains:

- More than **\$1 billion** in new wages and benefit plan funding.
- A streaming success bonus.
- Crucial AI technology guardrails.
- Minimum compensation increases that break the so-called “industry pattern.”
- Raised Pension & Health caps that will channel more money into the Plans.
- Critical gains and protections for diverse communities, background actors, self-tapes, and nudity and simulated sex scenes. And more!
